

Commercial Building Inspection Course: Accolades...

I commend you on your Commercial Inspection course. Your presentation and supporting materials were executed at the highest level. The course was well worth the fee.

I will recommend you to anyone wishing to increase their proficiency in the inspection field.

Too many things are left unsaid, so I'd just like to thank you for the commercial class in Ft. Laud.

Not only for the wealth of information, but also, and especially, for the overall point of view and attitude that you conveyed. Profession, yet relaxed; Principled, and practical.

It was a great experience, and a wonderful learning opportunity.

Austin Boleman

I just wanted to send you a quick note to say thank you for a wonderful class. I for one really appreciate the experience and knowledge you shared with us over the last 3 days. The class is one of the best and most informative that I have attended. You are an extremely gifted speaker and bring a lot of class and professionalism to your training. I went into the course with high expectations and you exceeded them. I learned a lot more than I thought I would.

Colt Inspection Services*

The most impressive aspect of the class, and what says volumes about your company, is the obvious goal of the instructor. It is understood that teaching is another revenue stream for anyone in the industry that goes on to teach courses to their peers and others in like industry. It was obvious from the start of the course to the end that Richard's ultimate goal was that each person in the class walk away having the ability to be successful in the commercial inspection arena. He displayed on numerous occasions that CDW was willing to do anything, within reason, to make sure this was accomplished. I would like to suggest that you not offer this course to your competitors.

Home-Probe, Inc.*

I am in my 9th year in the inspection profession and I believe that the Commercial Inspection Course was probably one of the best courses that I have ever taken. I applied some of the techniques that I learned in the class at a Commercial Inspection on a 26,000 sq. ft. office complex 2 days after the course and found the information invaluable. Mr. Weldon was a great instructor who really knew the course material and could also instruct the material so it could be understood. I would recommend this course to anyone considering Commercial Property Assessments.
